Yealink Video Solutions CP960-UVC Kits for zoomrooms

Reliable | Premium Audio and Video | Easy Deployment

Native Zoom Rooms Experience

In partnership with Zoom, the Yealink video solution CP960-UVC Zoom Rooms Kits come fully integrated with Zoom Rooms and include pre-installed Zoom Rooms software. Certified by Zoom, Yealink offers full range Zoom Rooms kits to fit different meeting scenarios needs, including the CP960-UVC30 for huddle and small rooms, the CP960-UVC50 for small and medium rooms and the CP960-UVC80 for medium and large rooms. The solutions deliver premium audio and video quality thanks to the combination of the Yealink CP960 Conference Phone and Yealink's UVC series cameras, which work in tandem to provide users a native Zoom Rooms experience.

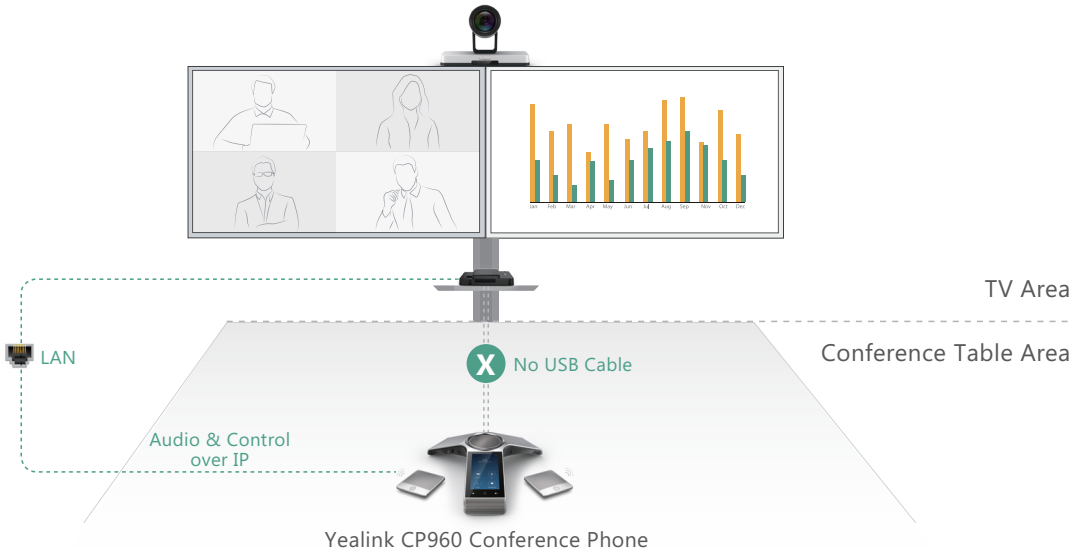
Total Device Package Offer

Yealink delivers a complete Zoom Rooms package containing a full hardware suite (mini-PC, camera, audio devices) as well as the requisite software and license, simplifying the purchasing process and deployment while making the after-sales service experience more convenient than ever.

Simple to Deploy, Easy to Use

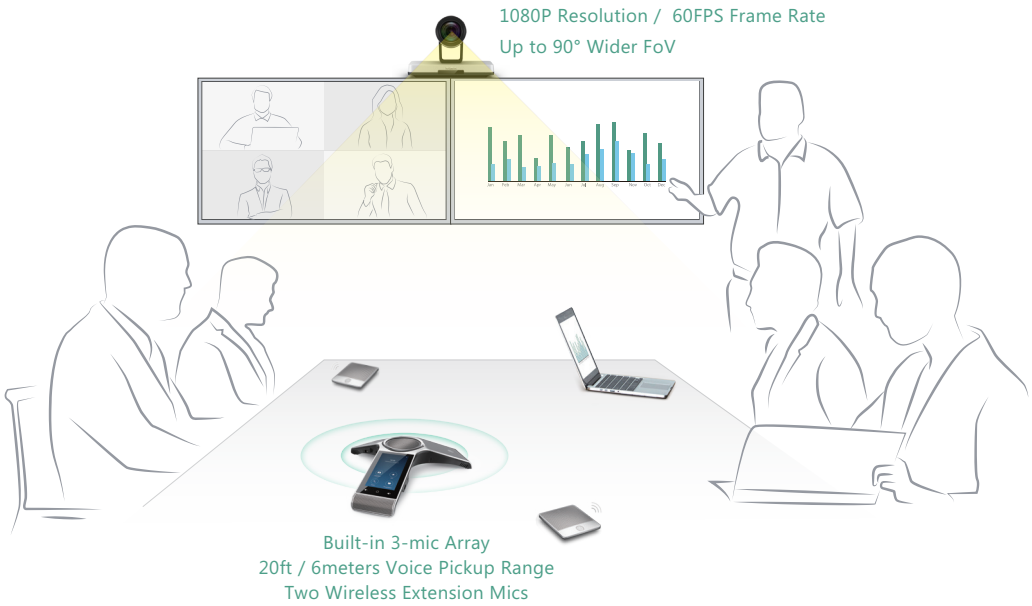
Yealink one-cable technology eliminates the need for a traditional USB cable from the television area to the conference table area, greatly simplifying deployment. The Yealink CP960 Conference Phone further declutters the conference area by uniting microphones, speaker and meeting console into a single package. When serving as a meeting console, the five-inch multi-touch screen display allows users to join the meeting, add participants, adjust volume and control the PTZ (Pan, Tilt, Zoom) of the camera, making meeting management a snap.



Premium Audio and Video Meeting Experience

Featuring a built-in three-microphone array, the Yealink CP960 Conference Phone ensures a 360-degree voice pickup range with up to a 20-foot (six-meter) radius. Thanks to Yealink Noise Proof Technology, background noise is minimized so that everyone in the room can be heard clearly. By adding the two CPW90 wireless expansion microphones, the CP960 can provide up to a 40-foot (12-meter) voice pickup radius without any additional wiring.

In CP960-UVC50 and CP960-UVC80 kits, Yealink's UVC optical PTZ camera delivers sharp, smooth and stable video with a deep focus field. The wide-angle horizontal field-of-view lens and adjustable camera angle provide a broad view of the conference room. While in CP960-UVC30 Kit, the UVC30 ultra 4K camera features 120° diagonal field-of-view and auto framing, ensures a premium video quality in small space.



Manage Your Devices Remotely

Yealink Device Management Platform or cloud service can manage the Yealink CP960-UVC Zoom Rooms Kits, allowing administrators to remotely control devices with ease. The platform supports remote configuration, firmware upgrading, monitoring and diagnosis. Through Windows Update, users can get the latest version of the UVC camera driver and Yealink Plug-in for Zoom Rooms, further enhancing the user's Zoom Rooms experience.
